NEW YORK MEDICAL COLLEGE INDIRECT COST RATE

65% - on site

26% - off site

Negotiated February 21, 2024

FRINGE BENEFITS

An average of 31% can be used to calculate fringe benefits budget costs, keeping in mind the actual rate will apply.

New York Medical College does not have a negotiated fringe benefit rate. All regular full-time employees are entitled to a benefits package that includes health insurance and a College contribution to a tax deferred annuity plan. Because health insurance is a significant component of the benefits and is a fixed monthly amount, the lower the individual's base salary, the higher the cost of benefits as a percentage of salary. The fringe rate is impacted by the selection of individual or family health coverage due to the varying expenses. Grant accounts are charged the actual cost of an individual's benefits in proportion to the salary charged to that grant account.

EQUIPMENT THRESHOLD

\$5,000 On-Campus/Off-Campus

One piece of equipment costing \$ 5,000 or more is excluded from indirect costs
